

Keeping Your Attention on the Road Could Save Your Life

Distracted driving is a major problem in Colorado and all over the country. While many people point to cellphones as the primary cause, there are many things that contribute to distracted driving. Yes, talking on the phone and texting are huge problems, but other sources of distraction include adjusting the radio or air, eating and drinking, putting on makeup, driving while drowsy, and other activities that take your eyes off the road.

All it takes is a few seconds of distraction to result in disaster. A Virginia Tech Transportation Institute study found that taking your eyes off the road for just five seconds increases your risk of crash by 23 times ... <u>CONTINUE READING</u>
