### WHAT AI MEANS FOR THE WORLD OF PERSONAL INJURY

AI has taken the world by storm this year, and personal injury law is no exception. At VanMeveren Law Group, we're committed to staying ahead of the curve when it comes to legal technology, but never at the expense of our personal connection with clients. Our goal is simple: use AI tools to improve your experience and resolve your case as efficiently as possible, while continuing to provide the compassionate, responsive service you expect from our team.

# Personal Injury Cases Are Stressful Enough, Communication Shouldn't Be

If you've ever gone through a personal injury claim, you know the process can be overwhelming. Waiting for updates, chasing down documents, and wondering what's happening behind the scenes only adds stress to an already difficult time, especially when cases can take months, or even years, to resolve.

That's why **we promise weekly communication throughout the life of your case.** Sometimes our check-in is a simple progress update. Other times, it's a deeper conversation about medical care, paperwork, or next steps. That commitment to consistency and transparency will never change.

## So How Does AI Fit In?

We're not replacing attorneys with artificial intelligence. We're using it as a behind-the-scenes tool to support our work to serve you better.

Here's how AI is helping us deliver even stronger results, faster:

### Faster Response Times

With AI supporting tasks like organizing documents, tracking deadlines, and managing case data, our legal team spends less time on repetitive admin work and more time focused on your needs.

### Smarter Case Strategy

AI tools help us analyze medical records, compare similar past cases, and identify patterns in insurance company behavior. That allows us to build stronger, more personalized case strategies and provide clearer insight into your case's potential value.

## AI Supports. Your Attorney Leads.

Let's be clear: AI isn't replacing your lawyer. It's a tool that helps us work more efficiently behind the scenes, so we can stay focused on what matters most: you and your recovery.

When you choose VanMeveren Law Group, you're choosing more than just legal experience, you're choosing modern legal support that keeps you informed, empowered, and always in the loop.

If you've been injured and want a team that values communication as much as results, we're here for you.

# NOTABLE CASE RESULT

**NEW CASE RESULT**

**FROM \$20,000 TO \$300,000**

WHEN THE INSURANCE COMPANY LOW-BALLS YOU, WE FIGHT BACK

A 48-year-old man was struck by a reckless driver who ran a red light then fled the scene of the crash. Our client was left with multiple displaced fractures in his right arm and hand which required two surgeries to correct and left him with permanent impairment of his right thumb and serious permanent scarring along his right arm. The team at VanMeveren Law Group fought with our client's own insurance company on his behalf after an initial low-ball offer of \$20,000.00, to recover our client's full policy limit of \$300,000.00 without the need for costly or lengthy litigation.

**MAY IN FORT COLLINS**

## **TESTIMONIAL**

*See what our clients have to say!*

"I worked with Karl Hager and Amy Selcke following my vehicle to bike accident in September. Karl and Amy stayed in touch with me every step of the way in my settlement process, multiple touch points a week on where progress was happening and making certain I was being looked after every step of the way. Finalizing my settlement was also a resounding success, they were able to find far more value than I would have ever anticipated or expected. 5 stars across the board!"

# ADOPTABLE PET OF THE MONTH

## *Mushu*

VanMeveren Law Group is a proud supporter of Animal Friends Alliance. Learn more about how you can adopt, foster or get involved at [savinganimalstoday.org](http://savinganimalstoday.org) or call the AFA Taft Hill Shelter at (970)-484-8516

Mushu loves nothing more than a good snuggle, especially if it's chilly out. When he's not getting all the love and attention from his humans, he enjoys chewing on his toys and soaking up the sun outside (did we mention he's not a fan of the cold?). He doesn't use his voice much, unless he's playing with another dog, but when he does, you'll be treated to bays, trills, and other unique sounds. Come meet Mushu today!
